

# Paradise

The Insyderz

I awoke on a beautiful day  
I stepped outside to see the sun shining down on me  
I take a big deep breath and think  
"There's no other place that I wanna be"  
I look at the sky, the grass, and the trees  
And all the neat things living in the sea  
Ask myself, "How could this be?"  
God made this so great for me

I wanna see just what it's like  
To catch a glimpse of paradise

Can't even fathom the scene  
Imagine all the possibilities  
All the things we've never dreamed  
Will be ours to touch and [sorry, can't figure it out]  
Forget the riches in front of me  
I have my faith, that all that I need  
It's so easy I just want you to see  
Shut your eyes and take a giant leap
