

# La Di Da

## The Internet

I move like the silent g in designer  
Real talk, something to say  
My groove ride a mice, now jump your whites  
More black is nothing, ay  
Get out my way, talk if you wanna  
Me llamo gonna pay  
I'm a hard act to follow, keep up your autumn  
Love it and draw my sweet Look at me, look I'm so suavy  
Dancing like your name shorty  
Hey, why you so worried 'bout me  
No, no, no sir, not today

I just came to dance  
Wanna move  
I can't with you  
Sayin' la di da, la di da  
Said, I'm try'na dance  
Catch your groove  
Not with you  
We go la di da, la di da

I'm draped in designer, waste with Face it, I'm out of your league  
No, I'm right beside you, talk, I ain't try'na  
Get back, I'm rollin' away  
All in my face, chat with you later  
Go find your posse please  
I'ma smooth operator, no, run your faders  
But let me enjoy my sweet sorry  
I'm sorry that I'm so blasé  
Why are you dancin' like your name shorty  
Hey, why you so worried 'bout me?  
I said no sir, not today

I just came to dance  
Wanna move  
I can't with you  
Sayin' la di da, la di da  
Said, I'm try'na dance  
Catch your groove  
Not with you  
We go la di da, la di da  
I just came to dance  
Wanna move  
I can't with you  
Sayin' la di da, la di da  
Said, I'm try'na dance  
Catch your groove  
Not with you  
We go la di da, la di da

Ladies, ladies, ladies, ladies. Please. There's enough me to go around. I do n't bite. Oh me? You already know what it is. To be honest, all I really wanna do is take you to the bridge
