

## Lovesong<sup>-1</sup>

The Internet

What happened to make you, to make you start to hate me?  
I once was your heart; worth love, and you were my□ everything  
Sometimes I wonder why I still try  
Don't say it's over

Cause we both know no ones perfect, baby,  
I feel like this could be worth it  
Ohhh

Cause I haven't felt much myself lately,  
what I got to do to get back my lady?  
Ohh ohhhh ohhh ohh
