

# Anything Was Better

## The Interrupters

I felt invisible, but everyone  
Was staring at me  
I felt alone, yet smothered  
Like no one would let me be  
I felt a yearning, like a burning  
Too hot to overcome  
Cuz anything was better  
Than where I was from

I met a band, they played a show  
And then we head out on the road  
We made it down to Arizona  
Where it didn't seem so cold  
I had a California Dream  
You know I need that fun fun fun  
Cuz anything was better  
Than where I was from

Anything was better  
So I went out on the run  
Anything was better  
I couldn't wait to see the sun  
Anything was better  
I said goodbye to everyone  
Cuz anything was better  
Than where I was from

Goodbye to old Queen Street  
Goodbye to Whitaker Park  
I'm thankful for the lessons  
But the memories are dark  
Good riddance to that home  
Where the nightmare had begun  
Yea anything was better  
Than where I was from

Anything was better  
So I went out on the run  
Anything was better  
I couldn't wait to see the sun  
Anything was better  
I said goodbye to everyone  
Anything was better  
Than where I was from

Anything was better  
So I went out on the run  
Anything was better  
I couldn't wait to see the sun  
Anything was better  
I said goodbye to everyone  
Anything was better  
Than where I was from

Anything was better  
Than where I was from
