

As We Live

The Interrupters

As we live, as we live, this is the time to love
As we live, as we live, this is the time to love
If not us, then who? If not now, then when?
Is there a hero among us or are all of the good ones just dead?

Life is for dancing, life is for moving
As long as I'm breathing, I am renewing
Life is for dancing, life is for moving, as long as I'm breathing

As we live, as we live, this is the time to love
As we live, as we live, this is the time to love
If the fall of the western civilization, leave the bus and arrive
At the station, music vocation, stereo citation
Peace and love raise the world vibration

Life is for dancing, life is for moving
As long as I'm breathing, I am renewing
Life is for dancing, life is for moving, as long as I'm breathing

As we live, as we live, this is the time to love
As we live, as we live, this is the time to love

Love is an action, start with yourself
Love is an action, start with yourself

This is the time to love, seize the day, don't wait for a sign
from above
Love light may blind my eyes, can't keep me down
Like a yearning still I rise

As we live, as we live, this is the time to love
As we live, as we live, this is the time to love

Love is an action, this is the time to love
Love is an action

We're running out of time!
