

Control

The Interrupters

Spiteful one out to settle scores
Filthy rich and you steal from the poor
Think I'm a puppet in your show
You only smile when you bring me down
But I'm the reason you're the talk of the town
And little do you know

You can't control me anymore
You can't control me anymore
You think you own me but it won't be like before
You can't control me anymore

Dark clouds are clearing up
Your energy is poisonous
You never cared for me at all
You were telling me to pay my dues
Man you couldn't walk a day in my shoes
So it's my turn to make the call
Hey!

You can't control me anymore
You can't control me anymore
You think you own me but it won't be like before
You can't control me anymore
Anymore
Let's go!

Spiteful one out to settle scores
Filthy rich and you steal from the poor, yeah
Now you're a puppet in my show
You only smile when you bring me down
But I'm the reason you're the talk of the town
And little do you know

You can't control me anymore
You can't control me anymore
You think you own me but it won't be like before, yeah
You can't control me anymore
Anymore
Anymore
