Let 'em Go

The Interrupters

Turn it up

Static comin' down my radio station
I'm always caught up in the same old situation
You dig your claws in me when we're embracing
I see your face and my heart starts racing

I told myself, "This time would different"
I turn around it's the same old heartbreak
The energy of the earth is shifting
So it's the time we say

Let 'em go, let 'em go, let 'em go
Let 'em go, let 'em go, let 'em go
Let 'em go, oh
When they try to take control, let 'em go

You never give, no, you always been taking
I hear your name and my hands start shaking
And every X, every O you were faking
Walk all over me? You must be mistaken

I told myself, "This time would different"
I turn around it's the same old heartbreak
The energy of the earth is shifting
So it's the time we say (Hey)

Let 'em go, let 'em go, let 'em go
Let 'em go, let 'em go, let 'em go
Let 'em go, oh
When they try to take control, let 'em go

(Hey)
When they try to take control, let 'em go
(Hey)
When they try to take control, let 'em go

(Hey, hey)

If you ever feel like they don't want your light
To shine this bright
If you ever feel like you don't have the right
To live your life

If you ever feel like they don't want your light
To shine this bright
If you ever feel like you don't have the right
To live your life

(Hey)

Let 'em go, let 'em go, let 'em go
Let 'em go, let 'em go, let 'em go
Let 'em go, oh
When they try to take control, let 'em go

(Hey)

When they try to take control, let 'em go
(Hey)
When they try to take control, let 'em go
