

Loyal till death, 'til death what we do
We stand together, we stand by our crew
Loyal till death, 'til death what we do
We stand together, we stand by our crew

We're bound by blood and we're bound by history
We've seen each other suffer and we've seen each other bleed
When times get tough, yeah they always stand with me
Through thick and thin, it's my family

Loyal till death, 'til death what we do
We stand together, we stand by our crew
Loyal till death, 'til death what we do
We stand together, we stand by our crew

December one, another year watch up the grove
Even when I lonely I'll never be alone
We got one heartbeat yeah, we got one soul
Got solidarity the only thing we know

Loyal till death, 'til death what we do
We stand together, we stand by our crew
Loyal till death, 'til death what we do
We stand together, we stand by our crew
Let's go!

Loyal till death, 'til death what we do
We stand together, we stand by our crew
Loyal till death, 'til death what we do
We stand together, we stand by our crew

Loyal till death, 'til death what we do
We stand together, we stand by our crew
Loyal till death, 'til death what we do
We stand together, we stand together
We stand together, we stand by our crew
