

# On A Turntable

The Interrupters

My fridge ain't broken  
But my beer ain't cold  
My body's aching, I'm not even old  
Police are coming  
But I did nothing wrong  
And I sit here singing  
But I don't have a song

Never had much, grew up with nothing  
But the music always meant something  
I've been down and out  
I've been on top of the world  
The world that keeps on spinning on a turntable

Don't have a room, but I'm not homeless  
I'm filled with doubt, but I'm not hopeless  
The stakes are up, but I got nothing at stake  
Got a wounded heart, but it won't break

Never had much, grew up with nothing  
But the music always meant something  
I've been down and out  
I've been on top of the world  
The world it keeps on spinning on a turntable  
On a turntable  
On a turntable  
On a turntable

Traveled the world, but been nowhere  
All I do is worry, but I got no cares  
And I drink too much, but still feel sober  
This record plays over and over

Never had much, grew up with nothing  
But the music always meant something  
I've been down and out  
I've been on top of the world  
The world it keeps on spinning on a turntable  
On a turntable  
On a turntable  
On a turntable  
Keep on spinnin'  
Ya keeps on spinnin'  
It keeps on spinnin'  
Ya!
