

# Phantom City

## The Interrupters

Police tape out, there's a roadblock  
Detective holds the sidewalk chalk  
He said, "no media here, put your cameras down"  
The search turned up no weapons found  
The suspect he was just a child  
But he stayed out late and he got profiled  
Now this town won't be the same  
The whole world knows it by name

Phantom city, Phantom city, we live in a graveyard  
And there ain't no pity  
Phantom city, Phantom city, we live in a graveyard  
And there ain't no pity

City's gonna blow like dynamite  
No justice, no peace tonight  
And the people rose up and made their voice heard  
No the city's shut down and their eyes are blurred  
From the tear gas comin' in just like fog  
And the sound we hear, it's a police dog  
Now this town won't be the same  
The whole world knows it by name

Phantom city, Phantom city, we live in a graveyard  
And there ain't no pity  
Phantom city, Phantom city, we live in a graveyard  
And there ain't no pity

We're not gonna be alone tonight  
You know we're stronger when we all get up and unite  
And there's a few of us against a million you know  
And peace and love is the only way to go  
The city's gonna blow like dynamite  
No justice, no peace tonight  
Now this town won't never be the same  
The whole world knows it by name

Phantom city, Phantom city, we live in a graveyard  
And there ain't no pity  
Phantom city, Phantom city, we live in a graveyard  
And there ain't no pity
