

The Other Side of the Evening

The Irish Rovers

We've tasted the best of our memories
We've laughed 'til we ached to the bone
It's the other side of the evening
And it's time for us all to go home

We cried when we talked about the old times
We toasted your health and my own
It's the other side of the evening
And it's time for us all to go home

It's the other side of the evening
Sunrise is chasing the moon
So let's make a promise to meet again
The same time and place sometime soon

We've sung all our songs about the good times
The sad times of being alone
It's the other side of the evening
And it's time for us all to go home

Ta dum, ta dum, ta dum dum
Ta dum, ta dum, ta dum
It's the other side of the evening
And it's time for us all to go home

We've tasted the best of our memories
We've laughed 'til we ached to the bone
It's the other side of the evening
And it's time for us all to go home

It's the other side of the evening
Sunrise is chasing the moon
So let's make a promise to meet again
The same time and place sometime soon

We've sung all our songs about the good times
The sad times of being alone
It's the other side of the evening
And it's time for us all to go home
It's the other side of the evening
And it's time for us all to go home

Ta dum, ta dum, ta dum dum
Ta dum, ta dum, ta dum
It's the other side of the evening
And it's time for us all to go home

Ta dum, ta dum, ta dum dum
Ta dum, ta dum, ta dum
It's the other side of the evening
And it's time for us all to go home
