

# She's Gone

The Isley Brothers

When she loved me, I was untrue to her  
I did her wrong, I told her lies  
I broke her heart, tore it apart  
And I know, I know I hurt her deep down inside  
But now, now I'm sorry  
So very sorry  
Oh Lord up above me, make happy leave me  
I said I'm sorry  
What else could I tell you? I'm sorry  
I know, I know I hurt her deep down side  
And I can hear all the people saying

(She's gone) Oh, oh, oh, oh  
(She's gone) My best friend's telling me  
(She's gone) Baby, baby, my baby, my baby  
(She's gone)

I'm gonna find her, and knock on her door  
Tell her that I'd never hurt her anymore  
And if I can have her all for myself  
Oh, do you believe that I don't want, just don't want nobody else  
And I can hear all the people saying

(She's gone) Yes, she is, oh oh  
(She's gone) My friends keep telling me  
(She's gone)
