

Stone Cold Lover

The Isley Brothers

You're a stone cold lover (stone cold)
Stone cold lover (stone cold)
You're a stone cold lover (stone cold)
Stone cold lover (stone cold)

You build me up so high (yes, you build me up, baby)
Then you say goodbye (girl, you know you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)
I watched you walk on by (walk away if you want to)
No one can deny (Heaven knows you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)

You are the only one that I desire (you're the one that I desire)
I know you can give me what I need, I know, I know
Whenever you make me feel the fire, feel the fire
You softly say you have to leave, why you got to go, girl?

You build me up so high (you build me up, baby)
Then you say goodbye (girl, you know you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)
I watched you walk on by (walk away if you want to)
No one can deny (Heaven knows you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)

You are the only one that I desire (you're the one I desire), ah yeah
I know you can give me what I need, I know, I know
Whenever you make me feel the fire, feel the fire
You softly say you have to leave, why'd you have to go, girl?

You build me up so high (yes, you build me up, baby)
Then you say goodbye (girl, you know you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)
I watched you walk on by (walk away if you want to)
No one can deny (Heaven knows you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)

You're a stone cold lover (stone cold)
Stone cold lover (stone cold)
You're a stone cold lover (stone cold)
Stone cold lover (stone cold)

You build me up so high (you build me up, baby)
Then you say goodbye (girl, you know you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)
I watched you walk on by (walk away if you want to)
No one can deny (Heaven knows you're a stone cold lover)
(Stone cold) stone cold lover (stone cold)

Stone cold, stone cold, stone cold, stone cold
Stone cold, stone cold, stone cold, stone cold...
