The Jacka

It's clear that we're on the verge of a great transition in human life  
That what we face now is this fundamental change of the life we've known over the last century

Been a goon naked bitches livin' in my swimming pool

Pushin' keys, runnin' through these trees like Ninja Scroll

Fuck what you heard don't speak 'less you take a soul  
Searchin' for a lash cause the task wanna take the bull  
JA same nigga used to chase you home  
Young Pac, eyes bloodshot, when you face the thump  
Mayday, hunnid shots in the My shooter seen your paper, pulled his hammer then you gave it to him  
Front a nigga Yae, hurry pay, we dont wait that long  
Tryna short the J, same day he don't wake up on  
Travel cross the globe, real niggas this they favorite tune  
Every soda poured, don't wake up till we see the moon  
Niggas try to dip through but this nickel had 'em breathin' wrong  
Styrofoam Sprite, nose white, nigga we be on
