

Never Worked

The Jacka

Pushin' drugs in a slower state but we city slickers
Mob I don't gotta act hard cause I really kill you
Then I vacate, U. K. Taking all my niggas
Getting face from your dream hammers in the place let 'em know
we not pretending
If you see me pull it from my waist it's cause I shot you with
it
I rob you nigga, hit your safe and bought lobster with it
Dropped 'em in a salt water tank same place I live at
Me and It's not safe but its nice where our kids live at
Every rapper wack, you a fag, you don't dig the track
All my niggas big like the Mystic Jack

We really out our mind
We getting cause its killers with me every time
The women love our life
Mob cause I never had a 9 to 5

Guess what, I never worked a day
Wanna be like Jack you gotta work your way

Cause it'll never work no other way
20 songs a night, eyes wide cause I'm using yae
California back step up your rap cause you it

got dope thank God they were losing me
What you waiting for, more shots than a open bar
Coke in the spot more chops than a grocery store
'Member no pops young Jack pressure on Once I come around nigga
s wonder where their shine went
Should be out here living but it's where time went
Dopest rapper living no writtens but it's timeless
Don't hold back or let 'em say it ain't your time yet
Thoughts like a giant I ain't running out of rhymes yet
Jack is a giant step for mankind
They laugh at respect but I demand mine

(x2)

We really out our mind
We getting cause its killers with me every time
The women love our life
Mob cause I never had a 9 to 5
