

# Label Me Love

The Jackson 5

Label me love so you can find me easy  
Open me up girl any time that you'll need me  
And when you find out what you are  
You won't have to look too far  
I'll be waiting, displaying the love that I've been saving

When you walk alone remember I'll be waiting  
With a heart and soul that's all yours for the taking  
Sitting here on the shelf  
Hoping that you'll help yourself  
Your love moving, and grooving  
Here I am so start your choosing

Label me love so you won't miss the real thing  
With a certain one you want then take the one that I'll bring  
I'll be the remedy, set your feelings free  
It'll clear up, so cheer up, happiness is flowing nearer

If you decide to go make sure you know the one who needs ya  
And when you're coming back make me the trick that's gonna bring ya  
Yeah, yeah  
When you find out what you need girl don't pass by me  
Read my writing, I'm inviting  
Your heart and mind just start uniting so

Label me love so you can find me easy  
Oh baby open any time that you'll need me  
And when you find out what you are  
You won't have to look too far  
I'll be waiting, displaying the love that I've been saving

If you decide to go make sure you know the one who needs ya  
And when you're coming back make me the trick that's gonna bring ya  
Yeah, yeah  
When you find out what you need girl don't pass by me  
Read my writing, I'm inviting  
Your heart and mind just start uniting

So, label me love so you can find me easy
