

## Aunties and Uncles

The Jam

Aunties and uncles -  
And people who like us  
But keep us apart all the same  
Friends and relations -  
We're public relations  
And we know in our hearts that we're  
Playing a part, me and you

One day they will know  
We don't need 'em no more  
And my confidence is coming

From the knowledge of knowing -  
Love is a-growing fast

Aunties and uncles -  
Who try to help us  
By suggesting what they think is best  
The people around me -  
Are looking for something  
But I've become blind 'cos I've found what I'm looking for

One day they will see  
One day only you and me  
And my confidence is coming

From the knowledge of knowing  
Love is a-growing fast

One day they will know  
We don't need 'em no more  
And my confidence is coming

From the knowledge of knowing -  
Love is a-growing fast

Aunties and uncles -  
And people who like us  
But keep us apart all the  
Keep us apart all the  
Keep us apart all the  
Keep us apart all the same
