

# The Night

The Jam

Travel the night  
Thousands of lights  
To show us the way  
Me and my mates will have a good time  
In the amusement arcade  
Park the bikes  
We're here at last  
Pull the birds that wait for  
This is it  
It's what it's all about  
We worked all week for this  
Let's go

Go to the clubs  
Dance for a while  
Have a drink or so  
Please ourselves  
Do what we want  
Tonight is ours to have fun  
The night will soon be gone  
It goes too fast  
Let's not waste time!  
No need to worry ourselves now

The night  
The night of our week  
One night  
We remember it well  
No one can take it away  
No one can deny us of that  
The night  
One night

Hear the sea  
Come tumbling in

Hitting the shore  
Feel the night breeze  
Beneath the pier  
As we try to sleep  
It feels so secure  
Alone with the sea at our feet  
The sea remains but that's all  
We had a good time while we were here

Good night
