

One More Time

The Janoskians

Burning down our bridges again
Another fresh start, I can be your friend
I'll be there, there for you, there for you

One more talk we can talk it through
One more time is all I can do
One last time

We've been here before
I can give you more
We've been here before
I can give you more

I'll give you my hand across this road
When you walk down in the cold
I'll give you warmth, all to you

Don't be scared to take my hand
Give you my love with all of our plans
Give my love all to you

We've been here before
I can give you more
We've been here before
I can give you more

We've been here before
Lying on the floor
Nearly had it all

We've been here before
I can give you more
We've been here before
I can give you more

We've been here before
Lying on the floor
Nearly had it all
