## The Japanese House

I wasted all my time  
Waiting for the stars  
To align  
To intertwine

And I'll take it up, all of my time  
Yeah, wherever you are  
I'm ready from afar

She makes me wonder why  
She makes me wonder what I'm doing  
Spending all these seconds away from her  
The time I'm losing  
Being far away, I'm lost in space  
Make it go away, all this space between us

Take it up, all of my time  
Now, you take it up, all of my time  
Yeah, wherever you are  
I'm ready from afar

She makes me wonder why  
She makes me wonder what I'm doing  
Spending all these seconds away from her  
The time I'm losing  
Being far away, I'm lost in space  
Make it go away, all this space between

She makes me wonder why  
She makes me wonder what I'm doing  
Spending all these seconds away from her  
The time I'm losing  
Being far away, I'm lost in space  
Make it go away, all this space between us
