

Hang On To Nothing

The Jayhawks

Played by Pistoleros on the album: "Hang on to nothing"

Well, I took her for granted
So now I sleep at night when no one's home
And she said no more passion
So I took over living here alone
And it's so cold

And

Chorus:

She said maybe you don't understand
Living here is like living in hell
And I say
Hang on, hang on to nothing
We're just two people trying to make a stand
Hang on, hang on to nothing
We're just two people trying to make a stand

And I believe it's over
But it ain't never over 'till it's dawn
And I forgot to ask her
Were she coming or where she done
And I'm on the run

And, (Chorus)

And I took her for granted
So now I sleep at night when no one's home
And it's so cold

But, (Chorus)
