

## Between Planets

### The Jesus and Mary Chain

Suicide standing sucking in her cheeks  
Too much lips and too much eyes  
Hasn't slept for weeks  
She don't know just where it goes

Jackie T said she saw death  
She's done it fifty ways  
But she's been off that medicine  
For almost fifteen days  
She don't know just where it goes

So turn around and run back where you're from  
You can't get on  
Don't shake those hips don't bite those lips  
Just keep it hid

Come on now you gave it away  
And all the friends you had got paid  
Come on now you were never that shy  
And that's no way for you to say bye bye

Baby you drive me crazy  
Don't come around here no more
