

## Happy Place

The Jesus and Mary Chain

I'm going back to a happy place  
All my life I've lived to taste  
Someone else's flavors on my tongue

Cherry take me back to the start of it all  
Where everyone's up then everyone falls  
Almost could destroy me with her kiss

Oh, I wish that I could feel  
And I feel too real  
For this grey moat  
And me, I'm drifting like the sun  
Down on everyone, the TV sky

Save me  
Come and save me  
Come on touch me  
Come on and touch me  
Come on hold me  
Come on and hold me  
I live my life for something I can't see  
Let me take you in my summer dream
