The Jets

From the north and the south, to the east and west  
I've looked in every corner of the world and baby you're the best  
It doesn't matter how or why or where or when  
Every minute, every second even every now and then  
Oh yeah

There's no other way it ever might be  
Just to know your always here beside me  
Take away this feeling and I'd to ice  
Everything I have, I'd sacrifice  
Just to be close to you  
Sacrifice

So wild, so wild  
I can't believe it, how can it be, can it be  
When you come close baby, I can feel your heart beat inside of me  
(Inside of me)  
And when you kiss me I break in two  
One of me wants to run and hide  
The other one wants to give up everything for you  
(I'd give up everything)  
Oh yeah

Don't you ever wonder if the world should end  
Could we stay together  
Could we please pretend  
We can live forever but we can't live twice  
Everything I have I'd sacrifice...

Just to be close to you  
Sacrifice (sacrifice)  
Just to be close to you (ooh yeah)  
Sacrifice

There's no other way it ever might be  
Just to know your always here beside me (beside me)  
Take away this feeling and I'd turn to ice  
Everything I have I'd sacrifice  
Just to be close to you  
Sacrifice  
Sacrifice, baby  
Sacrifice  
Everything I do  
Everything I have  
I'd sacrifice my heart  
Sacrifice  
Just to be close to you  
Sacrifice
