

# Only you

The John Butler Trio

Only you know what you want  
better go go go and get some.  
Only you know what you need  
look inside, man ya got the key-ey.  
You gotta be what you want,  
no one else is gonna give it to you.  
There's only one thing that's here  
you gotta be, now what you wanna see?

Up, down looking all around  
searching for the enemy  
who know when you'll be found.  
Scope up, living in the trench  
so sick and tired of livin' in this stench.  
Stand up, looking for directions,  
see my enemy in the mirror reflection.  
Oh my, where did he go?  
When my best friend become my foe, 'cuz

All I want is, to be free, yes  
Free above the whole debris and  
every day is just so mundane when we  
think this all is reality, 'cuz

Only you know what you want,  
better go go go and get some.  
Only you know what you need  
look inside, man ya got the key-ey.  
You gotta be what you want,  
no one else is gonna give it to you.  
There's only one thing that's here  
you gotta be, now what you wanna see?

Lock, load, ready to go  
man I gotta focus, get the show on the road.  
So damn used to get the fight  
when I ain't fight man I don't feel right.  
So how long can I live like this?  
Lookin' for a kiss while using my fist.  
Hey man, fallin' underway  
it's all a game so I'm gonna pay, 'cuz

All I want is, just to be free, yea  
free above the whole debris and  
every day is just so mundane when we  
think this all is reality, 'cuz

Only you know what you want,  
better go go go and get some.  
Only you know what you need,  
look inside, man ya got the key-ey.  
You gotta be what you want,  
no one else is gonna give it to you.  
There's only one thing that's here  
you gotta be, now what you wanna see?
