

## Back to Nothing

The Joy Formidable

Here it comes  
The leaves falling down  
So long  
It's taken all this time to begin  
I don't want you to save me now  
Let this in  
There's no meeting in the middle now

I won't go back to nothing...  
How it was  
I won't go back to nothing...

Here it comes  
Our footprints were found  
Start again  
It's taken all these steps to appear  
You thought I wouldn't notice the chill by your side  
When I'm leaning in  
There's no meeting in the middle now

I won't go back to nothing...  
How it was  
I won't go back to nothing...

The way you see it all  
It's more like  
Fading from there  
Watching from far away  
Without a call  
Bring it low to feel again  
And there you are standing back

I won't go back to nothing...  
I won't go back to nothing...
