

Somewhere New

The Joy Formidable

Are we spinning the spiral?
The skelter's a shelter, let it be your friend
I slept as your silhouette wept stars, asked
Is there a road if there is no end?

Somewhere new
Somewhere new, oh
If in my life I don't find you
Make me step out in the rain

The bee is busy but I can't be
And now it's clear I can't escape me
I'll take the gift, oh, in tomorrow's tears
The only forever was now

Somewhere new
Somewhere new, oh
If in my life I can't find you
Let me dance in the storm again
