

## The Hat

## The Joy Formidable

Here we land in the dust  
As farcical particles  
Evacuate empathy suit  
Keep in line, resolute

How you can stare so long  
If you stay, say

I can't let you go  
These buried moments  
That took me down, that live on in you  
I can't let you go  
When letting go is slow  
The shadows are long in this new sun

Off we go overboard  
Dare to live suddenly  
Yes and no  
Bow to north  
Share the code, follow me my guide

How can you stare so long  
If you stay, say

I can't let you go  
These buried moments  
That took me down, that live on in you  
I can't let you go  
When letting go is slow  
The shadows are long in this new sun

Here we land  
Far upstream  
To follow more, to follow deeply  
In the silence a better orbit  
All the world forget your watching  
Everyone take a little break

Come and move around like the first circle  
I'm making moves like moving furniture  
Wear the hat, wear the hat...

Come and move around like the first circle  
I'm making moves like moving furniture  
Wear the hat, wear the hat...
