

# Charge My Phone

The Jungle Giants

I love you

Baby, you just wait until I charge my phone  
I'ma get your number  
Honey, there's no way you're dancing on your own  
When I move like this, I move like this

Darling, please don't be mistaken, just a little love is all I need  
Baby, you just wait until I charge my phone

Hey, don't you know  
You'll never be alone  
You could take a picture, girl, but it won't last as long  
Take it day by day, anything you say  
We could start our life together once I charge my phone

Baby, I've been waiting for you all night long  
It's nice to meet you  
I hear angels sing above me when you talk  
When I hear you say, oh, please say, "I love you"

Darling, no, don't be mistaken, just your tender love is all I see  
Honey, all this waiting round is killing me

Hey, don't you know  
You'll never be alone  
You could take a picture, girl, but it won't last as long  
Take it day by day, anything you say  
We could start our life together once I charge my phone

Hey, don't you know  
You'll never be alone  
You could take a picture, girl, but it won't last as long  
Take it day by day, anything you say  
We could start our life together once I charge my phone
