

Every Kind Of Way

The Jungle Giants

It'll be on time
It'll be all fine
It'll be alright
Sometimes it might even give you a fright
It'll be during
A modern movie
It'll be during the sunset
It'll be during the sunrise
It'll be maybe sometime between now and then
It'll be easy
It'll be hard
It'll be in the middle even
It'll go all night
Sometimes even just for 10 minutes

I'm gonna love you
Every kind of way
I'm gonna love you
Every kind of way

The other day I found myself lying awake
Considering the other possibilities I could apply myself
Maybe during a meal or behind a hot car or even during a speech
It could find it's way into your life without me even thinking of it
It could be factual, punctual, spiritual, multilingual
The could go for a lifetime
Endless, endless years
And sometimes just for 10 minutes

I'm gonna love you
Every kind of way
I'm gonna love you
Every kind of way
I'm gonna love you
Every kind of way
I'm gonna love you
Every kind of way

I'm gonna...

I'm gonna love you
Every kind of way
I'm gonna love you
Every kind of way
I'm gonna love you
Every kind of way
I'm gonna love you
Every kind of way
