

On Your Way Down

The Jungle Giants

Outside stockpiled lightning
Has come to take us down
D-down, down, so get down
I won't run from this electric loving
Let it take me round, r-round, round, around

But we don't care
Won't be leaving here
Just let it pull
You away

And baby, on your way down, way down
Come on and feel love
Clap your hands a little
I'll pull your guard down, either way
Yeah, baby, on your way down, way down
Come on and feel love
Clap your hands a little
I'll pull your guard down, either way

I've been watching you go
The way you get down, d-down, down, get down
I've been liking this electric living
Been falling to the ground, so get down

But we don't care
Won't be leaving here
Just let it pull
You away

And baby, on your way down, way down
Come on and feel love
Clap your hands a little
I'll pull your guard down, either way
Yeah, baby, on your way down, way down
Come on and feel love
Clap your hands a little
I'll pull your guard down, either way

Unh-uh-unh-uh-unh-uh
Unh-uh-unh-uh-unh-uh
Unh-uh-unh-uh-unh-uh
Unh-uh-unh-uh-unh-uh
Unh-uh-unh-uh-unh-uh
Unh-uh-unh-uh-unh-uh
Unh-uh-unh-uh-unh-uh

Yeah, baby, on your way down, way down
Come on and feel love
Clap your hands a little
I'll pull your guard down, either way
Yeah, baby, on your way down, way down
Come on and feel love
Clap your hands a little
I'll pull your walls down, either way

Come on and feel love

Come on and feel love
Come on and feel love
Come on and feel love
