

People Always Say

The Jungle Giants

I could die
Live and be reborn tonight
Know I can lie
Oh, I need a shake up in my hardened mind

I guess it's how it goes
When the love is slow
I guess it's how it goes
When the love is slow

People always say
I look good by you
I could be wrong, I could be wrong
I could be wrong, I could be wrong
People always say
I look good by you
I could be wrong, I could be wrong
I could be wrong, I could be wrong

I could die
Live and be reborn tonight

I guess it's how it goes
When the love is slow
I guess it's how it goes
When the love is slow

People always say
I look good by you
I could be wrong, I could be wrong
I could be wrong, I could be wrong
People always say
I look good by you
I could be wrong, I could be wrong
People always say
I look good by you
I could be wrong, I could be wrong
I could be wrong, I could be wrong
People always say
I look good by you
I could be wrong, I could be wrong
