

# Something Got Between Us

The Jungle Giants

Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time

Hey, look at you go  
At the end of your rope  
Thinkin' nobody knows  
Got a six-pack of beer  
And a head full of fear  
Must be lonely up there

I know you've been hurting  
I feel that  
But where you're heading  
You can't come back

Something got between us  
Yeah okay  
We didn't mean to let it get this way  
Can we fix it? I don't wanna wait another day

Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time

You're up in the bed  
Holding on by a thread  
Got it all in your head  
Taking it to the brink  
Scared you'll go when I blink  
I don't know what to think

I know you've been hurting  
I feel that  
But where you're heading  
You can't come back

Something got between us  
Yeah okay  
We didn't mean to let it get this way  
Can we fix it? I don't wanna wait another day

Something got between us  
Yeah okay  
We didn't mean to let it get this way  
Can we fix it, I don't wanna wait another day

Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time  
Hey, never gonna let you go, not this time

I know you've been hurting  
I feel that  
But where you're heading

You can't come back

Something got between us

Yeah okay

We didn't mean to let it get this way

Can we fix it, I don't wanna wait another day
