

## Time and Time Again

### The Jungle Giants

Well, well, I, I could find ya, I could find a way  
To make it good if you want to, if you want, I could  
And baby did, I suppose you need to turn around?  
'Cause something is coming away right now

And if you're listening  
I come away to say, to say

Time and time again, we find our place somehow  
Time and time again, we find our way somehow  
And she shared all her reasons  
Yeah, she shared all her reasons

My dear, oh a little, why I lost my head  
Portable love, what was that you said?  
Oh well, I could reach out and touch you now  
But maybe instead, I'll put my ear to the ground

And if I'm listening  
You come away to say, to say

Time and time again, we find our place somehow  
Time and time again, we find our way somehow  
And she shared all her reasons  
Yeah, she shared all her reasons  
'Cause she shared all her reasons  
Yeah, she shared all her reasons

Time and time again, we find our place somehow  
Time and time again, we find our way somehow  
And she shared all her reasons  
Yeah, she shared all her reasons  
'Cause she shared all her reasons  
Yeah, she shared all her reasons
