

Guilt

The Junior Varsity

Just when I thought I was what I was
Come to find out I'm nothing
Constant empathy
Devil's advocacy
It's pushing all my buttons

I'm tired so I'm giving in
But I hate you so I guess I win
Yeah

You look so normal now
I'll be lying face down
If I could only hear it for myself
Guilt goes away
I'll be lying face down
Let me lie you face down

Just when I thought I was hungry enough
I take a bite of the policy
And I cant connect and I think you would expect
That I'm parting ways with the fallacy
Yeah

You look so normal now
I'll be lying face down
If I could only hear it for myself
Guilt goes away
I'll be lying face down
Let me lie you face down

Life can really knock you down
Wipe the smile from your face
And brother don't forget to take up some space
I know this is not just a phase

Guilt goes away...

(You look so normal now
I'll be lying face down
If I could only hear it for myself)
Guilt goes away
I'll be lying face down
Let me lie you face down

You look so normal now
I'll be lying face down
...
