

## PRIVATE

The Kid LAROI

Girl, did we move way too fast  
Or is it because we let everyone in on what we had?  
I'm not tryna walk you back  
You know that if nobody else gets it, I understand

The pressure you face isn't fair, no  
I wish I could take it all away from you, but I can't  
Yeah, I see the things that they can't, yeah  
So can we talk about it?  
Don't wanna talk too loudly

Hurt in your eyes  
We feel the same kind of pain, and it only gets  
Worse with time  
And everything that we say and we do gets  
Heard and I think  
It put a strain on our love that we didn't  
Deserve, next time  
I'm keeping it private  
Could have worked it out  
'Cause I know I was bad, but it could have been  
Worse somehow  
And everything that we built, we just watched them  
Burn it down  
It put a strain on our love that we didn't  
Deserve, next time  
I'm keeping it private

Called me drunk to tell me how you feel now  
Called me things I wish I could un-hear, I'm  
Sorry, but I feel the way I feel I  
Honestly think we should just be healing  
Called your bluff for saying that it's over  
All for what? Our time's up, so, girl

Can we talk about it?  
Don't wanna talk too loudly

Hurt in your eyes  
We feel the same kind of pain, and it only gets  
Worse with time  
And everything that we say and we do gets  
Heard and I think  
It put a strain on our love that we didn't  
Deserve, next time  
I'm keeping it private  
Could have worked it out  
'Cause I know I was bad, but it could have been  
Worse somehow  
And everything that we built, we just watched them  
Burn it down  
It put a strain on our love that we didn't  
Deserve, next time  
I'm keeping it private
