Beneath the Canopy

The Kite String Tangle

I lost you in the night again
Somewhere in the reverie
Trying to make amends
Beneath the canopy

I left you in the dark again
Faithful as gravity
You know it's just the state I'm in
Beneath the canopy

Please don't forget me
Please don't forget me
Please don't forget me

Don't erase me from your mind
Don't push me out of sight
You're haunting me tonight

If we both stop fuckin' around
We'll be alright
If we both stop fuckin' around
We'll be alright
If we both stop fuckin' around
We'll be alright

I lost you in the crowd again
Beautiful and innocent
Do you think you'd leave with him
Oh, or you're just threatening?

Call them magnificent
You like their company
Feeling significant
Beneath the canopy

Please don't forget me
Please don't forget me
Please don't forget me

Don't erase me from your mind
Don't push me out of sight
You're haunting me tonight

If we both stop fuckin' around
We'll be alright
If we both stop fuckin' around
We'll be alright
If we both stop fuckin' around
We'll be alright
If we both stop fuckin' around
We'll be alright
