

Hide And Seek

The Kite String Tangle

This night breathes
I'm looking for breath
Looking for meaning
Can you put the light back in me
These walls are caving in
I can't seem to find a way out
I can't seem to find a way out

We play Hide and Seek each night
You say I'm hard to find
I'm always hiding in my mind
I keep it all inside

Isolate, it precious stacking up
And I seem to [?]
Can you put the light back in me
These walls are caving in
I can't seem to find a way out
I can't seem to find a way out

We play Hide and Seek each night
You say I'm hard to find
I'm always hiding in my mind
I keep it all inside

I feel so far away
Please take my hand
Don't give up on me
'Cause I already have

I feel so far away
I don't understand
Don't give up on me
'Cause I already have

We play Hide and Seek each night
You say I'm hard to find
I'm always hiding in my mind
I keep it all inside
