

Miles Away

The Kite String Tangle

Float down now
It was never gonna stay
Float down now
The certainty, it falls away

Nightly test
I watch you as you rest
Under the weight of the unknown
Wishing I could go back home

Fight for love
It can never be enough
Shielded by the words you say
In my bed but miles away

Nightly test
I watch you as you rest
Under the weight of the unknown
Wishing I could go back home

Fight for love
It can never be enough
Shielded by the words you say
In my bed but miles away

Fight for love
It can never be enough
Shielded by the words you say
In my bed but miles away
