Selfish

The Kite String Tangle

I was set to destruct
Couldn't see that you were hurt 'cause
I found another one to keep me warm
Safe in the eye of the storm

Enough about a lover
Pull yourself together
After all the shit I put you through
You know that I'll be there for you
(Waiting) For you
(Everything) For you
From now on

If I could (rewind)
I would (every time)

It only hurts if it draws blood
From the moment that I met you I was

You were broken and I was the cause
From the moment that I met you I was
Selfish

You looked away when I gave into lust
From the moment that I met you I was
Selfish

From the moment that I met you I was
Selfish

From the moment that I met you I was

You would lower your defences
Wait for me to come to my senses
Everybody's scared of being left alone
But I had to find that out on my own

We'd been star-crossed lovers
Since we've been together
And after all the shit that we've been through
You know that I've fallen for you
(Waiting) For you
(Everything) For you
From now on

If I could (rewind)
I would (every time)

It only hurts if it draws blood
From the moment that I met you I was

You were broken and I was the cause
From the moment that I met you I was
Selfish

You looked away when I gave into lust

From the moment that I met you I was
Selfish

From the moment that I met you I was
Selfish

From the moment that I met you I was
