Wanderlust

The Kite String Tangle

In the dark of dusk
I feel the wanderlust
Always just shy of enough
As the water's rising up
Somebody's smiling down at us
All the socialites have been up all night
They're all drawn to the shoreline light
Feels like time is on our side
We're alive, we're alive

In the dark of dusk
I feel the wanderlust
The truth is we don't need much
I can feel it in your touch
'Cause words don't say enough
In the pouring rain
Meets the ocean spray
Meets the perfect look on your face
As you're screamin' out to me
We're alive, we're alive
