

Build A Fire

The KLF

Pulled up to rest, let the engine cool awhile
Open the beans, gather wood for the fire
I hum this tune, to all the girls I've known
Should I care, about the chances I'd blown?

Build a fire, they're gonna build a fire

Build a fire, they're gonna build a fire
They're gonna build a fire
They're gonna build a fire

When daylight breaks, I'll be down that road
Rockman an' me, with a light unload
We'll stop for lunch, in some Taco bar
Lee Marvin on the jukebox, 'Wanderin' Star'

Build a fire, they're gonna build a fire
Build a fire, they're gonna build a fire
