

Let Me Out

The Knack

One two three four

Let me out come and get me out 'cause I've been stuck in for too long

Let me out out come get me out baby maybe be where I belong

The time is right for stepping out in the light

My cup is full and I'll be pulling the wool tonight

Let me out come get me out you know that she don't understand

Let me out out come get me out baby I'm just living for the band

It's getting tighter and I'm feeling the bite

But I don't care because I'm getting my share tonight

Tonight tonight tonight whoo

Let me out come get me out I'm just a prisoner of your love

Let me out out come get me out baby I will never have enough

I guess I'm getting while the getting is right

She may be faking but I'm taking my chance tonight

Let me out
