

River Of Sighs

The Knack

Bang bang drop dead rip it up and paint it red
Make you wanta to shout maybe tell you what it's all about
'Cause you don't know, don't know no don't know
Billy playing pup tent, it was an accident
Baby's got a sick sense, mixing up her medicine
And you want it want it so bad, yeah
There's a feeling that will heal us
Leave you breathless feeling all right
Let it take you to the light

It's only love, the shiver that's shaking me
It's only love the look in your eyes
Only love, we'll slip into ecstasy and dive
In a river of sighs

Get a gun, gonna shoot 'em 'fore they run run
You fake, you flaunt tell me what you really want
'Cause you don't know no, don't know no
Missy's got a car superman super superstar
Said she's in the know, baby sexarama go go
But there's nowhere nowhere nowhere to go
Oh no
There's a feeling that will heal us
Leave you breathless, feeling all right
Let it take you to the light

It's only love, the shiver that's shaking me
It's only love the look in your eyes
Only love, we'll slip into ecstasy and dive
In a river of sighs

There's a feeling that will heal us
Leave you breathless, feeling all right
Let it take you to the light

It's only love, the shiver that's shaking me
It's only love the look in your eyes
Only love, we'll slip into ecstasy and dive
In a river of sighs

A dose of vanity, say no to sanity
Oh no
Oh no
