All About You

The Knocks

Days, they can feel so long
I've been hangin' on to a sad love song
Nights never came to dawn
They went on and on
When you pulled me out

And before I knew it
I became all about you
I became all about you
And before I knew it
I became all about you
I became all about you

Just like a ship
Without a sail
Just like a ship
Without a sail

Days, they felt so lost
I was so far gone
Hangin' upside down
Nights were only friend
My distraction
When you pulled me out

And before I knew it
I became all about you
I became all about you
And before I knew it
I became all about you
I became all about you

Before I knew it (Just like a ship)
Before I knew it (Without a sail)
He was nothin' to her (Just like a ship)
Before I knew it (Without a sail)
I became all about you (But I know we can make it)
All about you (But I know we can make it)
All about you (But I know we can make it)
All about you (But I know we can make it)
I said

And before I knew it
I became all about you (Just like a ship)
I became all about you (Without a sail)
I became all about you (Just like a ship)
I became all about you (Without a sail)
