

In our minds we're brighter than the sun
Setting fire to the skies, we'll burn as one, yeah
And in the middle of the blinding lights
We'll take a little bit of something right
If only we could find a higher place to close our eyes
And let it go

Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day

In our minds we're brighter than the sun
Setting fire to the skies, we'll burn as one, yeah
And in the middle of the blinding lights
We'll take a little bit of something right
If only we could find a higher place to close our eyes
And let it go

Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
Endisco, happens every day
