

# Flow

The Knocks

Come rush in before the sun comes down  
There's something I've been saving for you  
Images are running through my mind  
We'll take a trip out of town  
Somewhere where the water runs blue  
And we'll never worry 'bout the time

Let it all flow, let it all flow  
Let it all flow, let it all flow  
Let it all flow, let it all flow baby

And we'll never worry 'bout the time

Let it all flow, let it all flow  
Let it all flow, let it all flow  
Let it all flow, let it all flow baby

Come rush in before the sun comes down  
There's something I've been saving for you  
Images are running through my mind  
Images are running through my mind

Let it all flow, let it all flow  
Let it all flow, let it all flow  
Let it all flow, let it all flow baby
