

Limo

The Knocks

I really thought by now
I really thought that I
I would be famous, I'd be famous
Drivin' around, hop in my car
I'll take you where you wanna go

We'll take The One to Capitan
We'll smell the oceans
And the leather, and the leather
Roll down your window
Take a picture of yourself
Without your clothes

We're in my limousine
In my limousine
In my limousine
In my limousine
(In my limo, in the black car)
(I'm a, I'm a rockstar)

Do you want a ride
Do you want a ride
In my limo, in my limo
Do you want a ride
Do you want a ride
In my limo, in my limo

I really thought by now
I really thought that I,
I would be famous, I'd be famous
Roll into town, don't shut it down
You don't need tickets to the show

Just been waitin' all my life
For a moment in the light
Girl, to have you by my side
To be there by your side
Roll up the window
On a night like this
Nobody's gotta know

We're in my limousine
In my limousine
In my limousine
In my limousine
(In my limo, in the black car)
(I'm a, I'm a rockstar)

Do you want a ride
Do you want a ride
In my limo, in my limo
Do you want a ride
Do you want a ride
In my limo, in my limo

(Come ride, come ride in my limousine)
(Come ride, take a ride in my limousine)

(Come ride, come ride in my limousine)
(Come ride, take a ride in my limousine)
(Come ride, come ride in my limousine)
(Come ride, take a ride in my limousine)
(So come ride, come ride in my limousine)
(Come ride, come ride)

Come ride, come ride in my limousine
Come ride, take a ride in my limousine
Come ride, come ride in my limousine
Come ride, take a ride in my limousine
Come ride, come ride in my limousine
Come ride, take a ride in my limousine
Come ride, come ride in my limousine

In my limousine
In my limousine
In my limousine
In my limousine
(In my limo, in the black car)
(I'm a, I'm a rockstar)
