

One Fine Day

The Knocks

What a day
What a long, long day
What a day
What a long, long day

Wake up in the early morning
Sun is in my eyes
Feeling like a champion
I'm never losing a fight

I was running wild and chasing down all the things I did not need
With a smile you bring it out, this life got the mandem sweet, uh

Oh my God, I am blessed
And you know it's my time
All my days, no more stress
And I'm gon' get my shine
Running 'round, I've been running 'round
I've been feeling so narrow
It's been up and down, been up and down
I'm here to let you know

And on that one fine day
We will take it there
And on that one fine day (And on that one fine day)
We will make it there

Wake up in the early morning
Sun is in my eyes
Feeling like a champion
I'm never losing a fight

I was running wild and chasing down all the things I did not need
With a smile you bring it out, this life got the mandem sweet, uh

Oh my God, I am blessed
And you know it's my time
All my days, no more stress
And I'm gon' get my shine
Running 'round, I've been running 'round
I've been feeling so narrow
It's been up and down, been up and down
I'm here to let you know

And on that one fine day
We will take it there
And on that one fine day (And on that one fine day)
We will make it there (We will make it there)
And on that one fine day (What a day)
We will take it there (What a long, long day)
And on that one fine day (What a day)
We will make it there (What a long, long day)

(One fine day, one fine day)

We will be there, yeah
Let's go, let's go

Oh yeah yeah yeah

On that one fine day we will be there
On that one fine day we will be there
On that one fine day we will be there
On that one fine day we will be there
