

R U HIGH

The Knocks

Sometimes I stay
At home, in bed
Up late, upset
Go on, go get

I know you've been getting older
Whole world weighing on your shoulders
Are we done, is this ever over?
Are you high, are you ever sober?
Are you there? I'm just double-checking
Do you care, why you keep forgetting?
I was there when you weren't expecting
I was there, I was there

[illegible]

I know you've been getting older
Whole world weighing on your shoulders
Are we done, is this ever over?
Are you high, are you ever sober?
Are you there? I'm just double-checking
Do you care, why you keep forgetting?
I was there when you weren't expecting
I was there, I was there

[illegible]

Hold me back but I want you back
And you hold me back but I want you back
And you hold me back but I want you back
And you hold me back but I want you back, back, back, back
Hold me back but I want you back
And you hold me back but I want you back
And you hold me back but I want you back
And you hold me back but I want you back

Are you high?
Are you high?
Are you high?
Are you high?
Are you high?
Are you high?
Are you high?
Are you high?

Hold me back but I want you back
And you hold me back but I want you back
Hold me back but I want you back
And you hold me back but I want you back
